Subject: **NPDES Permit No. TN0020729 – Peracetic Acid (PAA) Disinfection Approval**
Memphis-TE Maxson STP South Plant
Memphis, Shelby County, Tennessee

Dear Mr. Hudgins:

In a letter dated May 10, 2016, you described progress and work tasks achieved at the T.E. Maxson Wastewater Treatment Facility. Considering that the permit nor the modification have not been completed due to permit appeal issues still to be resolved, we appreciate facility's commitment to continue work on the effluent disinfection process. We deem your PAA disinfection approach approved and look forward to receiving your various engineering plans/specifications needed to proceed.

If you have questions, please contact the division at your local Field Office at 1-888-891-TDEC; or, at this office, please contact me at (615) 532-0670 or by E-mail at Vojin.Janjic@tn.gov.

Sincerely,

Vojin Janjic
Manager, Water-Based Systems
